Bruce L. McClennan, MD Awarded 2009 ARRS Gold Medal

Bruce L. McClennan, MD, professor of diagnostic radiology at the Yale University School of Medicine in New Haven, CT is a recipient of the American Roentgen Ray Society's highest award, the Gold Medal for Distinguished Service to Radiology. Dr. McClennan received the award on April 26 during a ceremony held at the ARRS 109th Annual Meeting in Boston, MA. Dr. McClennan also received a gold medal award from the Society of Uroradiology this spring.

Dr. McClennan received his undergraduate degree from Union College in Schenectady, NY and attained his medical degree from SUNY-Upstate Medical University in Syracuse, NY. He completed his NIH fellowship and residency in diagnostic radiology at Columbia-Presbyterian Hospital in New York, NY.

Dr. McClennan is a member of 20 plus societies including the ARRS where he served as the president in 2005, the Greater St. Louis Society of Radiologists where he served as president from 1986-1987, the New England Roentgen Ray Society where he was vice president from 2000-2002, the Society of Uroradiology where he was president from 1989-1990 and the ACR where he served on the board of chancellors for six years.

Throughout his career, Dr. McClennan has been an editorial board member and reviewer for numerous journals including the AJR, Radiology, the Journal of Urology, European Radiology, Investigative Radiology and the American Journal of Kidney Diseases. He is also the editor of the monthly publication, RSNA News. Dr. McClennan is credited with 36 books/chapters, 107 scientific presentations and 140 plus scientific papers.

His prolific career as an educator and physician has earned him several honors and awards over the years. In 2002 he was recognized by the American Board of Radiology and received the Distinguished Service Award.

About ARRS

The American Roentgen Ray Society (ARRS) was founded in 1900 and is the oldest radiology society in the United States. Its monthly journal, the American Journal of Roentgenology, began publication in 1906. Radiologists from all over the world attend the ARRS annual meeting to participate in instructional courses, scientific paper presentations and scientific and commercial exhibits related to the field of radiology. The Society is named after the first Nobel Laureate in Physics, Wilhelm Röntgen, who discovered the x-ray in 1895. ###
