

2025 TOP DOCTORS

Who
made
the list?

1,845 peer-selected
physicians
in **81** specialties

Finding a qualified health care provider can be a daunting task.

We're here to help. We've once again partnered with national health care research firm Castle Connolly, whose extensive survey identified more than 1,800 Connecticut physicians in a wide range of specialties, all nominated by their peers and vetted to meet the criteria to earn the designation of Top Doctors. In short, these are the doctors other doctors recommend.

Also, inside are Castle Connolly's 2025 **Rising Stars**. While too early in their careers to earn a Top Doctors designation, these physicians are being recognized for outstanding accomplishments and dedication to the field of medicine. Find them on page 106.

After being selected, physicians were given the option to purchase a paid advertising profile. The profiles section starts on page 164. **Doctors do not, and cannot, pay to be selected as a Top Doctor or Rising Star.**
